

Prof. Ilan Tur-Kaspa is the President and Medical Director of the Institute for Human Reproduction (IHR) with offices in Chicago and Oakbrook, Illinois, and in Valparaiso, Indiana, USA. He specializes in advanced infertility treatments and preimplantation genetic testing (PGT) and reproductive imaging. In addition to the thousands of IVF cycles he personally conducted over the years, over 2000 were IVF/ICSI - PGT cycles for single gene disorders, translocations, HLA typing and aneuploidy. He is the author and co-author of over 100 scientific publications and book chapters and he is a co-Editor of two books on 'Biotechnology of Human Reproduction' and 'Ultrasound Imaging in Reproductive Medicine'. He served as Chair of the Reproductive Imaging Special Interest Group of the American Society of Reproductive Medicine and as the President of the Chicago Association of Reproductive Endocrinologists.
